

POWER FROM ABOVE!

Halo Energy, LLC and Coventry Pool Service have teamed up to offer YOU a fantastic new and dependable product!!

Solar Swimming Pool Heaters

A little bit of information on How Solar Swimming Pool Heaters work:

- Using your existing pool pump, pool water is directed through a series of valves to your solar collectors.
- Pool water enters the solar collectors at the bottom and rises to the top through the individual tubes of the collector.
- As the water rises through the collectors it is heated by the SUN's RADIANT ENERGY.
- The swimming pool water is then returned to your pool to repeat the cycle until the pool is warm.

Solar Heating of your Pool is:

- INSTALLED in as little as 1 day
- An Efficient Use of Energy
- GREEN 
- Can Double Your Swimming Enjoyment ~ Extend Summer!

Halo Energy LLC ~ Local dependable certified installer.
